Southern Taiwan University of Science and Technology

Founded in 1969 and located in the beautiful, historic Tainan City, STUST is only five-minute walk away from a commuter train station offering quick travel to downtown Tainan.

Profoundly emphasizing on practice and application, STUST, a private technical university, currently has more than 18,000 students (the 6th place in Taiwan) and more than 800 international students from 34 countries, along with more than 550 faculty members (87% with PhD degree) and around 350 part time teachers and professionals from industries.

STUST has 4 colleges, 24 departments, 4 bachelor programs, 32 master programs, and 4 doctoral programs in either English or Chinese instruction.

Students gain opportunities to develop their global views by visiting our sister universities for exchange and by practicing their learned skills via internship in domestic and foreign industries.

Among 31 buildings, STUST has comfortable dorm buildings, a multi-media digital library with 13 floors, a 12-story teaching and research building, and a brand new state-of-the-art gym.

All STUST staff, faculty, and students enjoy a 10% discount at Starbucks and two 7-11 convenient stores on campus. STUST also offers a self-serve cafeteria and bookstore.

STUST Outstanding Achievements

Ranked 2nd in educational funding subsidized by Taiwan's MOE as Teaching and Learning Excellence for 2006-2016.

Awarded the second highest funding by MOE as Paradigm Technology University for 2011-2016.

All programs in the College of Engineering are IJET accredited, Signatory of the Washington Accord.

All programs in the College of Business are ACCSB accredited and now are in the last phase of getting AACSB accredited.

Ranked #8 of Top 20 Universities of Outstanding Performance for 2015.

Rated by industries as the most favored graduates for 7 consecutive years among all private universities of science and technology according to Taiwan's well-known leading career magazine Cheers.

Teaching Features

STUST emphasizes industry-academia cooperation. Teaching features include a curriculum that meets the demand of future careers, R&D achievements integrated into teaching, experts invited from industries, student participation in industry-academia research projects, internship opportunities, and the instructions towards "Creativity, Innovation and Entrepreneurship."

International Cooperation

STUST has established formal academic relationships with 211 universities in 32 countries. The four colleges at STUST collaborate to invite distinguished scholars from our partner universities to participate in our annual international conferences. In addition, we regularly host scholars from abroad for academic lectures and classroom presentations on our campus.

We eagerly recruit excellent international students to study at STUST, and we provide them with free Chinese lessons, scholarships and other comprehensive services.

Industry-Academia Collaboration

Industry-academia collaboration is one of the crucial indicators and distinctive features in technical and vocational education. By means of improving R&D quality and quantity, promoting patented products, inviting experts from industries to co-teach, and strengthening students' practical ability in their specialized fields, STUST not only increases the quantity but also enhances the quality of our collaborations, thus enabling our university to become a valuable partner for a variety of industries.
